

Uploading Clinical Images

Our Dermatopathologists are here to partner with you in the diagnosis and treatment of your patients. While clinical information is important, clinical images can enhance diagnosis - clinical images allow our Dermatopathologists to see the lesion in the context of the patient. Please upload images of your sampled area to our secure, HIPAA-compliant server from your computer or mobile device.

1 Go to bakodx.com

2

Click the **IMAGE UPLOAD** button near the top right of the home page* or go directly to images.bakodx.com

3 Complete the form on images.bakodx.com

email for confirmation code

patient first name

patient last name

mm/dd/yyyy or mmdyyy

physician name

mm/dd/yyyy or mmdyyy
